

Note: ComAp cloud identity is a single account that offers access to the ComAp ecosystem and its features. You need just one ComAp cloud identity account to access many of our systems. It also gives users the option to activate multi-factor authentication and increase the security of their accounts.

Guideline for ComAp cloud identity registration

ComAp cloud identity (CCI) is a standalone ComAp service that provides a single account for all existing and upcoming ComAp cloud services

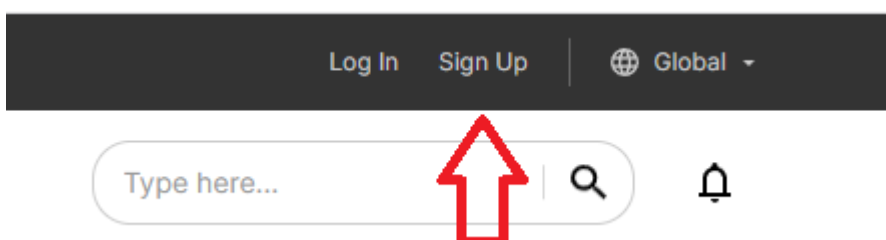

CCI also extends our customer's security and provides multifactor authentication (MFA). Using MFA takes the login into applications to the next level of security.

Step 1

- Go to <https://comap-control.com> page.

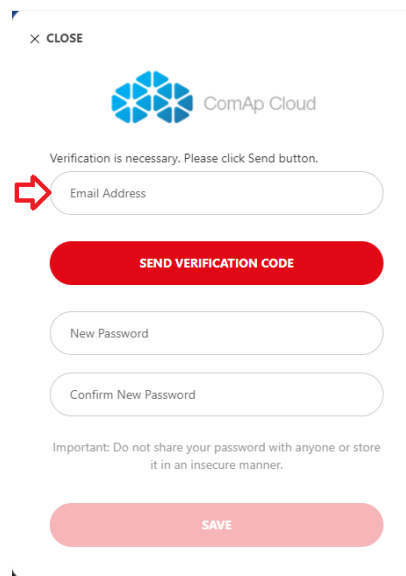

Step 2,

- Sign up for a ComAp Cloud Identity (CCI).

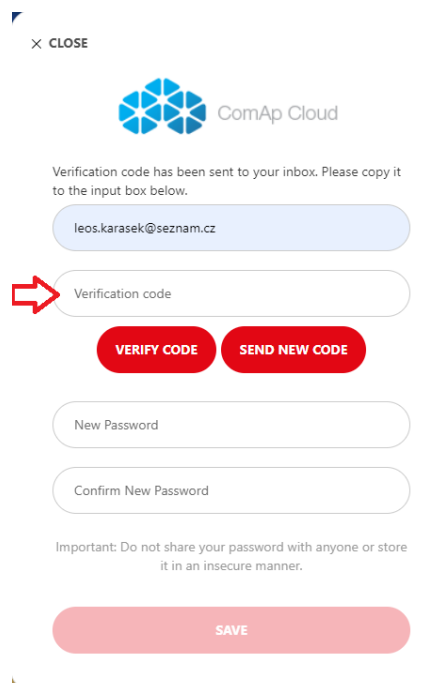

Step 3

- Enter your email and click on “Send verification code”

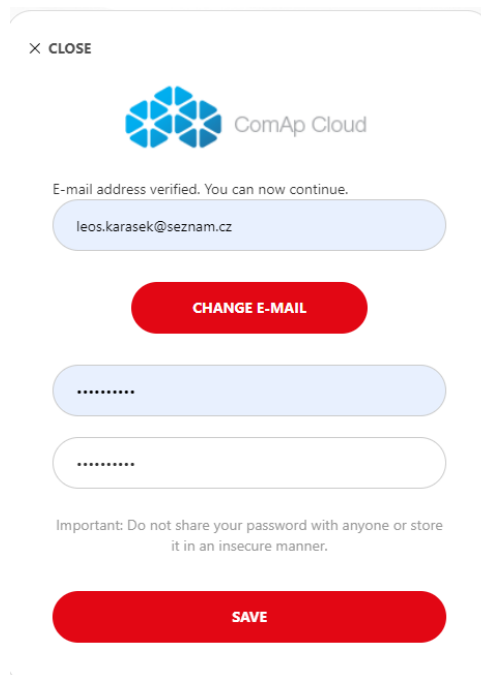

A screenshot of a web form for ComAp Cloud. At the top left is a close button labeled 'CLOSE'. The ComAp Cloud logo is centered. Below the logo, a message reads: 'Verification is necessary. Please click Send button.' There is a red arrow pointing to an 'Email Address' input field. Below this is a red button labeled 'SEND VERIFICATION CODE'. Further down are two more input fields: 'New Password' and 'Confirm New Password'. At the bottom, there is a red button labeled 'SAVE' and a warning message: 'Important: Do not share your password with anyone or store it in an insecure manner.'

- Check your email box and insert a verification code to confirm your email address

A screenshot of the same ComAp Cloud registration form. The 'Email Address' field now contains the text 'leos.karasek@seznam.cz'. A red arrow points to the 'Verification code' input field. Below this are two red buttons: 'VERIFY CODE' and 'SEND NEW CODE'. The 'New Password' and 'Confirm New Password' fields remain empty. The 'SAVE' button and the warning message are still present at the bottom.

- Enter your password and click “Save”

× CLOSE

 ComAp Cloud

E-mail address verified. You can now continue.

leos.karasek@seznam.cz

I consent with transfer and processing of my personal data, which are processed as a representative of my employer, and data related to my employer, to EU in the extend and for the purpose stated in the [Privacy Policy](#)

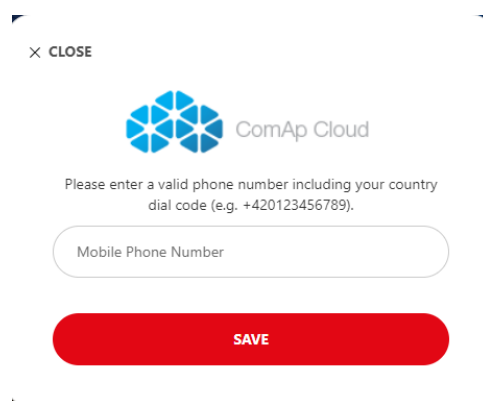

SAVE AND CONTINUE

Step 5 - optional

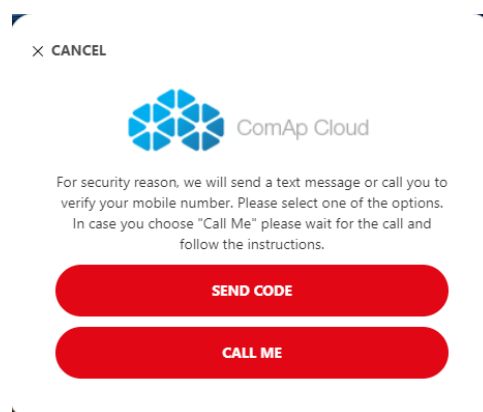

- Activate the multifactor authentication

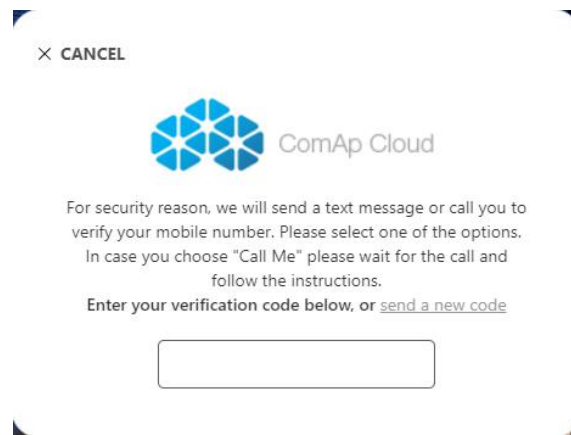

- Enter your mobile phone number

- Select one of the options, how you want to verify your phone number

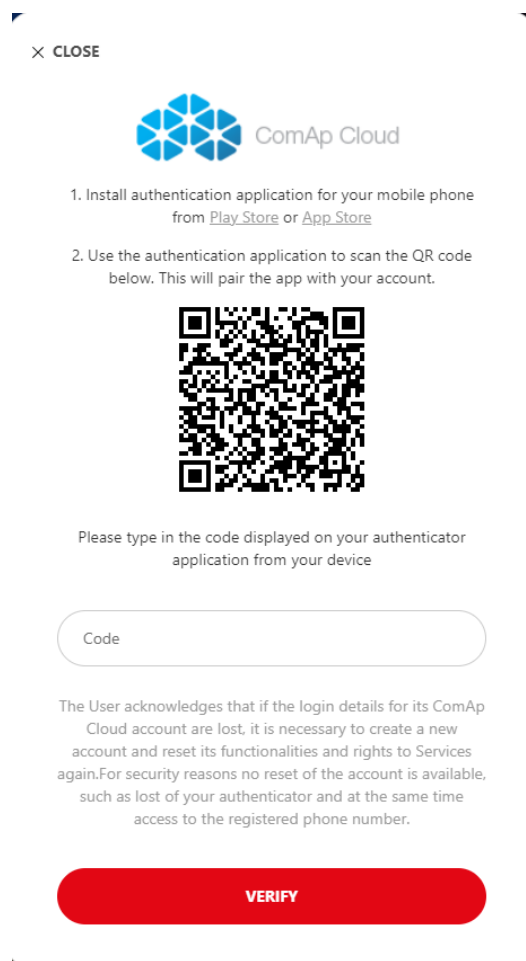

- Enter the verification code you received

Step 6

- Use QR code below for downloading the authentication app (recommended) or go to Google play store / Apple store (depends on your mobile phone system) and install an authentication application (Microsoft Authenticator). The application is mandatory for MFA using.

- Follow the instructions to finish whole process

Step 7

Now your ComAp cloud identity is prepared. You can Log In across all ComAp applications supported by ComAp Cloud Identity, by one account.
